Security & Safety Magazine 2011: Editorial Plan of CCTV Section

For publication in CCTV Section of S&S Magazine for 2011 year we choose the subjects, dedicated to the most advanced technologies, existing on the market and actively discussed by the market players: the most required products and solutions and perspective trends for nearest 3 years.

S&S Magazine #1

Product Exploration: Networks And Video Compression Formats.

- Sub-allocated Network Storage: Double Security.
- Different Compression Standards (MJPEG, MPEG-4, H.263, H.264) – Benefits Or Formal Marketing?
- Frame And Stream Compressions. Perspectives of Different Formats in CCTV Surveillance
- Network CCTV Surveillance: Features And Hidden Water Stones.
- Technical Survey: Megapixel IP Cameras (Up To 2 Megapixels).

Subsection "Mechanical Vision"

- CCTV System Organization At The Large-Scale Enterprise, Based On Mini-Servers And IP Cameras With Embedded Analytics

S&S Magazine #2

Product Exploration: HDcctv – The Third Alternative?

- HDcctv vs Megapixel IP: "Competitors" Or "Colleagues"?
- HDcctv And Megapixel IP: Particular Features Of Signal Transmission.
- Requirements To Ethernet-Network When Building IP Megapixel Surveillance System.
- Technical Survey: HDcctv Equipment (Cameras, DVRs, Monitors).

Subsection "Mechanical Vision"

- CCTV System Organization With Embedded Analytics At The Large-Scale Enterprises (Olympic, Infrastructure and Oil&Gas Enterprises)

S&S Magazine #3

Product Exploration: Black & White Video Surveillance

- B/W Video Surveillance: Perspectives and Segments of Demand.
- Technical Survey: B/W Cameras Without Embedded Lighting (Analogue, Stationary).
- Video Surveillance At Public Transport: Ownership Cost.

Subsection "Mechanical Vision"

"Safe City System" Concept With Video Analysis

S&S Magazine #4

Product Exploration: Speed Dome vs. Megapixel

- Speed Dome, Market Survey: Will The Speed Domes Be "Pushed Out" by Megapixel Stationary Cameras?
- Zoom Functions in HDTV-Cameras.
- Technical Survey: Speed Dome Cameras – Analogue And Network Ones.
- Analogue: Survival Factors Within Megapixel IP Market Growth.

Subsection "Mechanical Vision"

Intelligent PTZ-patrol Functions. Market Offers, Technical Possibilities And Application Ways.

S&S Magazine #5

Product Exploration: Video Quality

- CCD- и CMOS-matrix. Features and Differences.
- Dynamical Range Increasing. Technologies From Different Manufacturers.
- Technical Survey: Colour Telecameras (Analogue And Network, For C/CS Lenses)

Subsection "Mechanical Vision"

- Video analytics: Picture Stabilization Modes (Filters Used In Security Surveillance Systems)

S&S Magazine #6

Product Exploration: Cameras' Sensibility And IR-Lighting

- Embedded And Stand-Alone IR-Lighting. Colour and B/W Cameras.
- Different Ways of Cameras' Sensibility Increasing. Advantages And Disadvantages. Sensibility Comparison Of B/W, Colour and Day/Night Cameras.
- 24-Hours Indoor Video Surveillance.
- Technical Survey: Cameras With Embedded IR-Lighting.

Subsection "Mechanical Vision"

- Technologies Of The Future: Multi-Cameras' Detection, Support, Classification and New Quality of Video Surveillance.
