Access Control – Evolution and now the future

Video will be part future Access Control systems

The reason for Access Control is to allow people to get access to places they are entitled to go to

There is an expectation for documentation and traceability

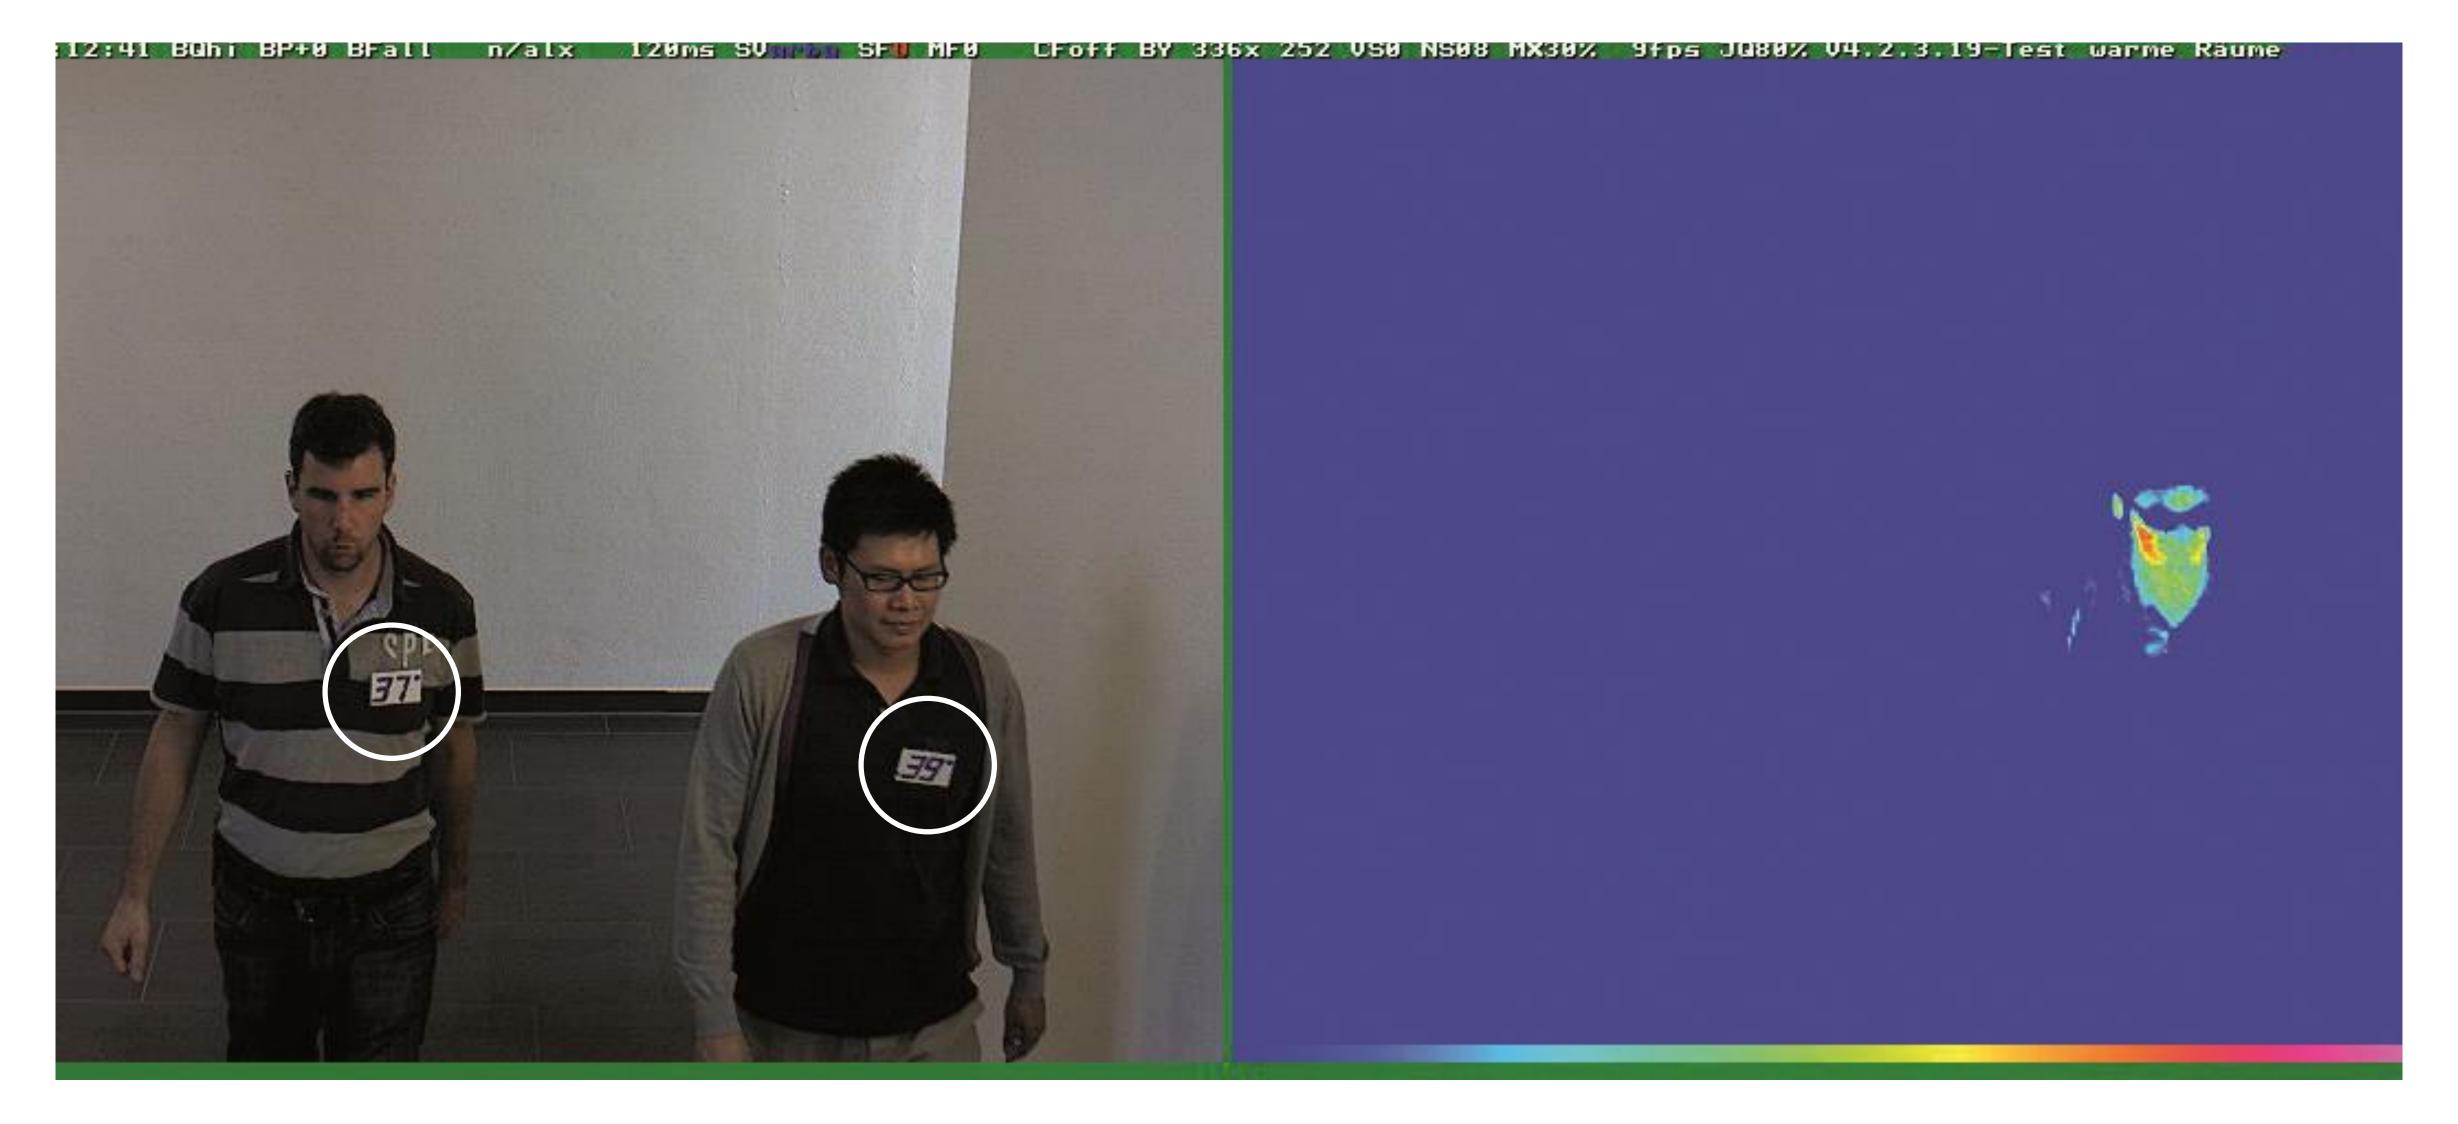

Video should always be part of an Access Control solution – it supports above and beyond

Video will be part future Access Control systems

- Let me share 2 examples probably not for Private houses
- 1. The use of Thermal
- 2. The extreme solution

Taking Access Control to the extreme

Consider this...

- More solutions are Cloud based
 - Cloud, IoT, Mobile access to deliver new capabilities for the future
- Platforms delivers API's and SDK's
 - Opens up for integration
- Digital certificates as core component
 - Mobile phones, tablets, CCTV, BMS
